Annexe 1 – Flying flags at half mast

Full details of the correct way to fly flags at half-mast is given on the website of the Flag Institute (www.flaginstitute.org). It is important that the guidance given by the Flag Institute is adhered to strictly.

Half-mast means the flag is flown two-thirds of the way up the flagpole, with at least the height of the flag between the top of the flag and the top of the flagpole. Flags cannot be flown at half-mast on poles that are more than 45° from the vertical, but a mourning cravat can be used instead (see the Flag Institute's website for further details).

When a flag is to be flown at half-mast, it should first be raised all the way to the top of the mast, allowed to remain there for a second and then be lowered to the half-mast position. When it is being lowered from half-mast, it should again be raised to the top of the mast for a second before being fully lowered.

When a British national flag is at half-mast, other flags on the same stand of poles should also be at half-mast or should not be flown at all. Flags of foreign nations should not be flown, unless their country is also observing mourning.

Annexe 2 – Statement to be issued by the Mayor on the announcement of the death of a senior national figure or other prominent figure.

The statement should begin with a suitable expression of the sadness of the Authority on hearing the announcement. It might go on to state that flags will be flown at half-mast. If it is an occasion when Books of Condolence will be opened, then reference could be made to that.

When a decision has been taken on the Mayor's programme of events and engagements it might be stated that events are being cancelled as a mark of respect or that they will begin with a period of silence.

If in doubt, do not rush out a statement which commits the Authority to action before that action has been discussed and has the necessary agreement from the Mayor and the Town Clerk.
