**Report to the Meeting of Shaftesbury Town Council's  
Planning and Highways Committee  
to be held at 7.00pm on Tuesday 21<sup>st</sup> July 2015  
in the Guildhall, High Street, Shaftesbury**

**PLANNING APPLICATIONS**

**1. Purpose of Report**

To consider responses to the schedule of planning applications identified below, and any further applications received before the date of the meeting, for return to the Local Planning Authority, North Dorset District Council.

**2. Recommendation**

That the Committee provides its observations on the below mentioned applications and any further applications received before the date of the meeting.

**3. Background**

- 3.1. Shaftesbury Town Council is a statutory consultee which is provided the opportunity to make observations on planning applications within its parish boundary. These observations are reported back to the planning authority in order that it can make an informed decision when determining the application.
- 3.2. The Committee may request that an application be considered by the planning authority's Development Management Committee if there are matters of particular concern or which would be better considered during debate.
- 3.3. Planning applications can be viewed online at <http://planning.north-dorset.gov.uk/online-applications/> or at the Town Hall offices.
- 3.4. Members are asked to consider for each application, whether they support the application or object to it. Consideration should be given to matters relating to planning law and also to local knowledge. More guidance on how to comment on planning applications can be found at <http://www.planninghelp.org.uk/improve-where-you-live/how-to-comment-on-a-planning-application>. The table below gives some matters to bear in mind when considering the Committee's observations.

<b>Material Planning Considerations</b>	<b>Not Material Planning Considerations</b>	<b>Not Material Planning Considerations but there <i>may</i> be exceptions</b>
<b>Residential amenity – living conditions</b>	Property values	Views
<b>Traffic and parking issues</b>	Land ownership	Preferred alternative land uses
<b>Noise, Vibration, Soundproofing, Contamination, Land Stability and Flood Risk</b>	Boundary disputes	Personal circumstances
<b>Hours of Operation – Restrictions</b>	Party Wall and Joining on	Economic viability
<b>Design, Materials, Windows etc</b>	Private views	
<b>Harm to the environment</b>	'there are too many already'	

- 3.5. If the Committee resolves to object to an application, reasons supporting that objection should be provided.

3.6. Members are reminded that although the history of planning applications on a particular site may provide them with a 'bigger picture', they are to provide observations on the details of the current application only. Members are therefore not automatically provided with the history of a site but may ask for it from the office if they feel it is pertinent to their observations on the current application.

3.7. Committee members responsible for providing observations on planning applications in specific wards, do so in addition to any representation that the ward members may make. Residents may choose to put their views on an application through the office, their ward councillor of the Committee member who is representing that ward on the Planning Committee.

#### 4. Applications

4.1. Members may use the blue boxes below each application to mark the reasons they may wish to object to an application or to mark the reasons observed at Committee.

That the Committee receives and notes the report and refers any additional matters to the Planning Authority.

**3. Background**

- 3.1. As a Statutory Consultee on planning applications, Shaftesbury Town Council provides its observation on every planning application within and affecting the Town. These observations inform the Planning Officers and Planning Committee at the relevant Planning Authority (usually North Dorset District Council) in their determinations on each application.
- 3.2. The Committee can benefit from noting the decisions made on applications to inform its own decision making and may inform Town Council policy decisions in the future to preserve matters of importance to the Town. Decision notices are available online at <http://planning.north-dorset.gov.uk/online-applications/> or at the Town Hall offices.

**Lighting**

**1. Purpose of Report**

- 1.1. To consider response to sample lighting provided at 96 St James Street.
- 1.2. To consider the Council's strategy for street lighting elsewhere in the Conservation Area.

**2. Recommendation**

- 2.1. That the Committee formally responds to the sample lighting at 96 St James Street
- 2.2. That the Committee considers forming a working party to draft a strategy for street lighting elsewhere in the Conservation Areas of Shaftesbury.

**3. Background**

- 3.1. Dorset County Council had previously contracted for replacement lights throughout the County. In the course of rolling out the replacement lights, inappropriate lights (in size and design) were being installed in the Conservation Areas in Shaftesbury.
- 3.2. Installation was put on hold because of the sensitivity in particular on St James Street and Gold Hill but also in part for other Conservation Areas in the Town.
- 3.3. The Town Council has been working with the Contractors to find a suitable solution to the lighting in St James and Gold Hill. Sample lanterns were placed on the Town Hall in 2014 and although they were considered to be an improvement to the municipal lighting, they were considered too large for the small cottages in St James Street.
- 3.4. The Contractors provided an alternative lighting unit on 96 St James Street in order for the Town to consider for placement in St James Street and Gold Hill. Residents were consulted and will be reported to the Committee. **(Appendix A to follow)**
- 3.5. In addition to the immediate issue regarding lighting at St James Street and Gold Hill, the Chairman has indicated a wish to review the lighting for all Conservation Areas in the Town. The Committee should consider forming a working party to draft a strategy for street lighting elsewhere in the Conservation Areas of Shaftesbury.
