

Summary

NEIGHBOURHOOD PLAN ADVISORY COMMITTEE INFORMAL MEETING

Thursday 13th December 2018 - Town Hall AT 5pm

Apologies – none – all AC members were present

Justification of policies and next steps – progress update from each workstream

- See latest version which I have attached.
- SEA (Strategic Environmental Assessment) screening request has been scheduled for mid-January
- January SNPAC meeting – vision to be agreed and wave 1 consultation to be signed off
- Parking policy/ design policy – awaiting reports from the external consultants. Likely these reports will arrive during the first week of January.

Parking survey and design statement progress update

- Work in progress. Parking data (DCC and NDDC ticket has been sent to AECOM) – both consultants have confirmed they are working on the respective reports
- Analysis of traffic studies/ parking data analysis to date – see PowerPoint presentation

Review of the Motcombe plan – feedback?

- Not covered in detail due to time constraints

Website update and branding discussion – include a review of published evidence to date (Zoe)

- Contact DCC with comparative data with other market towns (Zoe)
- Send all data to Stuart (Zoe) and link him up with Joe Allen at DCC
- HGV specific data needed to understand the full impact of vehicular ratio (Zoe)

Writing the draft plan – discussion

- TBC at the January meeting. What we know at this stage is that the structure of each workstream can be drafted in terms of aims and objectives, policy intentions

Vision for consultation issues and options in February 2019

- To prepare some options for discussion at the January SNPAC meeting – sign off content during the meeting

Review and next steps

- Think about the vision in advance of January's meeting.
